“AND THE BEAT GOES ON” DJ SERVICE **MUSIC SUGGESTION & SELECTION GUIDE**

The following pages contain a small sample of our vast musical libraries. It is meant to be more of a guide to help you with music selection for your event. This list has been compiled based on national surveys of entertainers as to the most popular music played at parties. Some important things to remember as you look through the following pages:

- This list represents roughly only 5% of your DJ's actual music library. Our DJs carry on average over 90,000 digital music files and over 100 cds to every function.
- Our DJs carry a vast selection of every type of music. Don't feel that if a certain category in this list only has a few selections, that it means that's all your DJ has for that category. It is merely a sampling of some of the more popular selections in their library.
- On average, songs range from 3 to 5 ½ minutes in playing time, which means a DJ can play an average of 12 to 16 songs per hour. Keep this in mind when choosing the number of songs of special meaning that you definitely want played at your function. For an average 6 hour wedding reception, here is an average time breakdown - 60 minutes: Cocktail hour, 30 minutes: Introductions/Bridal Dances/Toasts/Blessings, 90 minutes: Dinner. This leaves on average 2-3 hours for dancing. With most songs averaging 3 1/2 - 4 minutes, that's an average of 15-17 songs per hour that can be played.
- We always honor and respect your choices for types of songs you don't want played. If you tell us a song not to play and a guest requests it, we politely explain that their host has been to many types of functions and is looking to make theirs special and different, so certain songs will not be played to avoid the "same old party music" atmosphere.
- It is strict company policy not to play songs that contain violent and/ or derogatory sexual themes that are offensive. Period.
- Keep in mind that you have hired a DJ to play music for people to dance to. While we respect our client's varied tastes in music, be considerate of the difference between a favorite songs or music groups of yours that will fill the dance floor because you know they will all like it, and one that you maybe like to listen to in your car or at the gym but would empty a dance floor because it's either inappropriate or simply not danceable. Basically what we're saying is that in over the thousands of functions we've performed at over the years, we can count on 1 hand the number of times a band like Metallica or Ozzy Osbourne has sent the crowd into a dancing frenzy.
- Everyone always asks about our newer selections such as top 40, r&b, & dance. Basically, most professional DJs, including ourselves, have exclusive access to companies with names like "Promo Only" or "Hot Hits". Monthly, the major record companies pool the top radio airplay songs into 1 cd and release it to radio & mobile DJs through subscription services. They contain 15 to 22 of the top songs that will be popular in the upcoming weeks.... basically we're getting all the new hot songs before they even start playing on the radio. One of the main reasons the companies do this is so that we'll play their songs & they will make money off people buying their cds! Often, we get copies of songs up to 2 months before the artist even releases the cd.
- Our DJs carry a vast selection of ethnic music, jazz, and various holiday and special occasion music. Simply ask regarding specialty selections and we'll do our best to make the music for your event memorable and fun!

*******IMPORTANT MUSIC SELECTION DEADLINE POLICY*******

Because we pride ourselves on our pre-event preparation and often make backup cds of all of your bridal dances and requested songs, it is company policy that ALL client music selections be submitted no later than 21 days before your event or your final details meeting, whichever comes first (this includes additional lists you have compiled not affiliated with this database). This will afford us the time and opportunity to properly prepare for your event.
